

Explain Newton's Three
Laws using only pictures

What is a good experiment?

What is the difference
between a bird and a
aeroplane?

Gravity is an integral part
of the web of life. Why?

Collective Knowledge Assessment.

Choose your own color of pencil crayon.
You have two minutes at each question,
then you will switch to the next question.
You will visit each question several times.
Remember to read what the previous person
has written. Add to it, expand on it,
elaborate it, disagree with it! Create an
answer to each question that represents
everything the group has learned.
